

CritiCool SW Version 5.4A

Marketing Bulletin MB0710

Dear valuable partner,

MTRE is proud to launch a new software version for the CritiCool- 5.4A

I would like to present the new versions advantages:

- Adults and Neonates pre-configured modes
- Automatic re-warming mode
- New empty mode

The advantages features of the new version designed to facilitate the use of the CritiCool and to provide an adequate rejoinder to the market evolving needs, especially in the neonate ICU.

The new software version is based on the priceless feedback we received from you. I would like to take this opportunity to thank you for your cooperation and for your efforts towards distributing the MTRE's thermoregulation solutions.

Kind Regards,

Ben Manoach

Product Manager
